About Us

Hemplife CBD is a new premium Health & Beauty brand. Our strapline... "For The Way You Live"... captures the essence of the brand by focusing on your specific personal needs.

Hemplife CBD oils are formulated to target areas in our busy lives that can sometimes become unbalanced. Areas such as our mood, our memory, our immune system, and our ability to relax. These specifically targeted oils are available in 3 strengths, 1500mg, 3000mg, and 4500mg so that you can choose the right strength for your personal needs. We also have a pure CBD oil, with no targeted additives, that is available in an additional stronger dosage of 6000mg.

At Hemplife CBD we believe in using only the best natural ingredients for all our premium products. We want all our customers to benefit so all our oils are also THC-free, Gluten-free, and suitable for Vegans and Vegetarians.

What is CBD?

Cannabidiol (CBD) is one of many naturally occurring chemical compounds that can work in harmony with the human Endocannabinoid system.

The Cannabidiol is extracted from the Hemp Plant (Sativa L). The raw Cannabidiol is then usually blended with coconut oil (MCT) to create the final product. Raw Cannabidiol is only one of over 100 different Cannabinoids and Terpenes found in Hemp. All of these are claimed to carry various health benefits. Some products on the market are pure CBD so they are called an "Isolate". Other products contain all the Cannabinoids and Terpenes including some THC. These oils are called "Full Spectrum". To be legally sold in most countries the maximum amount permitted is 1mg per bottle. This is because THC, in much larger quantities, is the compound found in recreational Marijuana that has a psychoactive effect.

Finally, some oils are called "Broad Spectrum". These oils have all the beneficial Cannabinoids and Terpenes but, even though 1mg per bottle should have no psychoactive effect at all, all THC is removed.

All Hemplife CBD oils are classified as "Broad Spectrum".

Heart

Anti-inflammatory, Artherosclerosis, Anti-ischemic.

Bones

Strengthens Bones.

Stomach

Anti-emetic, Appetite Control.

Intestines

Anti-prokinetic.

Hemplife CBD

For the way you live.

Our Oils

We have created our unique range of premium CBD oils to help with some of the most common lifestyle health problems.

Our oils have been carefully formulated using only the best natural ingredients. To help you make the right choice, we have colour coded each of the oils based on the unique properties across six different wellbeing categories.

Our Oils are split up into different strengths to suit different lifestyles, enabling you to choose the right oil and strength for you.

Hemplife CBD Relax Oil

With Passion Flower & 5-HTP

We have enriched our broad spectrum, high quality Hemplife CBD Oil with **Passion Flower** and **5-HTP**.

Passion Flower and **5-HTP** have been used as a natural, alternative way to reduce anxiety and to help to treat insomnia.

Oil Strength		
1500mg	3000mg	4500mg

Hemplife CBD Mood Oil

With Lemon Balm & Vitamin B12

We have enriched our broad spectrum, high quality Hemplife CBD Oil with **Lemon Balm** and **Vitamin B12**.

Lemon Balm is said to soothe symptoms of stress, help you to relax, and boost your mood.

Vitamin B12 plays a vital role in synthesising and metabolising serotonin, a chemical responsible for regulating mood.

Oil Strength		
1500mg	3000mg	4500mg

Hemplife CBD Memory Oil

With Ashwagandha & Ginkgo Biloba

We have enriched our broad spectrum, high quality Hemplife CBD Oil with **Ashwagandha** and **Ginkgo Biloba**.

Ashwagandha has been associated with improved brain function and is traditionally used as an alternative natural way to boost memory.

Ginkgo Biloba is often used to treat mental health conditions.

Oil Strength		
1500mg	3000mg	4500mg

Hemplife CBD Immunity Oil

With Turmeric & Vitamin D3

We have enriched our broad spectrum, high quality Hemplife CBD Oil with **Turmeric (Curcumin)** and **Vitamin D3**.

Curcumin has been used for thousands of years and is said to have powerful anti-inflammatory effects and can act as a very strong antioxidant.

Vitamin D3 plays an essential role in both bone and immune health.

Oil Strength		
1500mg	3000mg	4500mg

Hemplife CBD Menopause Oil

With Sage & Vitamin B12

We have enriched our broad spectrum, high quality Hemplife CBD Oil with **Sage** and **Vitamin B12**. The body naturally experiences a decline in estrogen levels during menopause. That decline causes side effects like hot flashes, excessive sweating, vaginal dryness, and irritability.

Sage has been used as a traditional medicine to reduce these symptoms. **Vitamin B12** plays a vital role in synthesising and metabolising serotonin, a chemical responsible for regulating mood.

Oil Strength		
1500mg	3000mg	4500mg

Hemplife CBD Natural Oil

We have kept our broad spectrum, high quality Hemplife CBD Oil simple by not including any additives. This is a strong oil that is simply mixed with a healthy carrier oil (**MCT**) and presented to you as nature intended.

Oil Strength			
1500mg	3000mg	4500mg	6000mg

How To Take Hemplife CBD Oil

It is advised not to eat, drink or smoke for 5 minutes before and after using the Oil.

1. Stand in front of a mirror, so you can see under your tongue.
2. Drop the required amount under your tongue and let it sit for 1-2 minutes.
3. After 1-2 minutes swallow any remaining oil.

Take twice a day.

How To Buy

You can order online for home delivery via our website or, if you would like to discuss your individual needs in person, you can contact us via email to find a local Retailer or Hemplife CBD approved Associate.
